

Isaac Physics Teacher CPD

Using isaacphysics.org for A Level Chemistry and Thermal Physics resources

This session's objectives:

- Finding **Isaac Chemistry resources**: <https://isaacphysics.org/chemistry>
- Using the **Syllabus maps** to find syllabus-appropriate questions:
https://isaacphysics.org/pages/syll_map_chem
- Using the **Question Finder** to select questions by topic and level
- Using the **Chemistry Equation Editor**: <https://youtu.be/zeBHUKVeKPE>
 - https://isaacphysics.org/questions/ch_editor_1
 - https://isaacphysics.org/questions/ch_editor_2
- Using the **Structural Formula Editor**: https://jsme-editor.github.io/dist/JSME_test.html
- Your questions!

Chemistry book: pdf (chapters 1-2)

<https://isaacphysics.org/chemistry>

Introducing Isaac Chemistry Resources

All the questions and use of the site is completely FREE for all, students and teachers alike.

Like Isaac Physics, Isaac Chemistry resources will focus on developing problem solving skills in chemistry from A-level through to the transition to university. Also like Isaac Physics, we have commissioned a mastery book for pre-university physical Chemistry.

Mastery Book

A Level Chemistry Questions

Free Registration

For Teachers

Developing mastery of essential pre-university chemistry by Dr David Follows

- The first two chapters of this book, aimed at A-level students studying Chemistry, are available to [download as a pdf](#).
- The complete first edition is **now available** for £1 and is purchasable from [Isaac Books](#)
- **See questions from the Mastering Chemistry skills book.** Isaac marks them for you!
- The values for relative atomic masses and the constants used in the book are those given on this [Periodic Table](#)
- **For teachers:** See school [syllabus maps](#) for the pages of this book.

Using the Syllabus Maps to find syllabus-appropriate questions

› Follow this path to find the specification table for A Level:

Physical Chemistry book.

Mastering essential pre-university chemistry

Help

By D. I. Follows

These exercises help students master the concepts of Sixth Form chemistry.

Use this [Periodic Table](#) and [these constants](#) in calculations.

Buy the book

Printed copies, cost price £1 (plus p+p)

[Buy Isaac Books](#)

For Teachers

[Specification Table](#) - maps the book to your exam board.

Set a section for homework

Either click "Assign" below, or the section number in the specification table.

- You will be taken to your "Set Assignments" page where the section will appear in the top left position. Click on "Assign / Unassign" to see a drop down list of your groups.
- Click on the group name and "Save" to assign it.

Apple/Learn A Level or Learn/A Level Resources/Physics Chemistry Mastery Book/Specification table

https://isaacphysics.org/pages/syll_map_chem (copy into SOW for ref)

7 English and Welsh specifications are here – we are planning to include the Scottish and Irish specifications as soon as possible

A Level Physical Chemistry Syllabus Maps

- › Find syllabus-appropriate questions:

Home > Mastering Physical Chemistry Syllabus Maps

Mastering Physical Chemistry Syllabus Maps

https://isaacphysics.org/pages/syll_map_chem

You can set each page of the book as homework in 2 clicks! When logged on as a teacher, click on the page you wish to assign (e.g. A1) and you will be taken to your set assignments page with A1 as the top left box ready to assign to as many groups as you wish.

		OCR A (H032/H432)	OCR B (H033/433)	AQA	Edexcel	Eduqas	CIE Pre-U	IE Chem
A	Formulae & Equations							
A1	Empirical formulae	2.1.3	EL(b)	3.1.2.4	Topic 5	C1.3	A4.1	1.
A2	A _r & M _r and molecular formula	2.1.3	EL(a)	3.1.1.2 / 3.1.2.1	Topic 1	C1.3	A4.1	1.

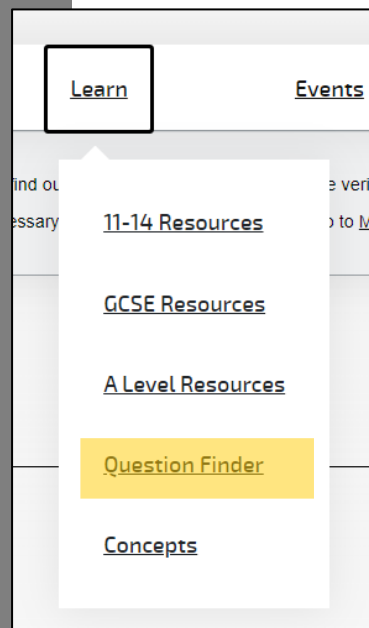

Question Finder

Use the Question Finder to create
gameboards

Route

- Learn/Question finder

Topics:

[Scroll to questions...](#)

Click these buttons to choose your question gameboard

I am interested in stage... ?

A Level

I would like questions for... ?

Practice

Challenge

Topics:

1 Use the dropdown to select a stage (GCSE, A Level, Further A, University)

3 Select difficulty levels.
Practice: directly apply 1 idea
Challenge: Apply multiple ideas, use creativity

2 Select a subject, field and topic.

Equation editor: Chemistry
