

Week 3 homework task:

Consolidating skills: writing for a purpose

Homework:

- **If you are attending the Away Day:**
- Collect some stimulus questions to modify that relate to your writing goals/desired outcomes.
- **If you are not attending the Away Day:**
- Take a question that you have written for KS4 or 5. Could this be adapted for KS3 and if so, how would you modify the language/content/presentation to make it appropriate for a young audience? Consider the maths content of your question. What skills will be tested? Will all students have these skills? How could you make your question more inclusive of a diverse student audience?
