

Isaac 2026 Update

Lisa Jardine-Wright

2026 Survey Summary: Teachers

Impact on teachers

- Mean saving = **5.78 hours per week** (106 teachers)
- Mode & median saving = **5 hours per week**
- Data shows that teachers who embed the platform into their school routine benefit the most from time saving.

Survey Year	Number of survey respondents	Average change in workload
2017	129	-2.0
2019	254	-3.6
2021	328	-3.7
2022	185	-3.8
2024	136	-5.5
2026	137	-5.8

2026 Survey Summary: Teachers

Impact on teachers

- ⬡ Some teachers report workload increase?
 - Creating personal solution banks
 - Writing into schemes of work initially is time intensive
 - Checking work because of AI

2026 Survey Summary: Teachers

User Experience - Positives

- ⬡ Instant feedback - motivates
- ⬡ Rigour and accessibility

Pedagogical Benefits

- ⬡ Identifying student misconceptions
- ⬡ Support for non-specialist teachers
- ⬡ Inspiration for schemes of Work

Technical Challenges

- ⬡ Threat of AI
- ⬡ Too many clicks to reach assignments

Requested Features

- ⬡ Expanding biology and chemistry content
- ⬡ Anti-cheating measures
- ⬡ Favouriting/Tagging Questions & save decks
- ⬡ AI Marking for written responses
- ⬡ Streamlined assignment management

2026 Survey Summary: Students

Attitude

- Increased subject interest
- Competitive motivation
- Persistence through failure

Academic Skills

- Physics & maths grade improvement
- problem-solving confidence
- Directing their own learning

2026 Survey Summary: **Students**

User Experience - Positives

- ⬡ Instant feedback
- ⬡ Well-organised layout
- ⬡ Free & high quality

Requested Features

- ⬡ Save decks and favourite questions
- ⬡ Dark mode and open dyslexic font
- ⬡ Competitive leaderboards

Technical Challenges

- ⬡ Sig figs strictness
- ⬡ Lock-out after wrong attempts
- ⬡ Mobile navigation

Significant Figures

- New sig figs rationale page
- More detailed feedback for students

Part B
How much GPE is lost? ▾ Attempted

If the hoop is held on the floor in a vertical position so that it could be rolled along, but is instead released and allowed to fall sideways to the ground - what is the gravitational potential energy lost, to 2 significant figures? Take $g = 9.81 \text{ N/kg}$

Value Unit

What can I type in this box?

Significant Figures
Your answer looks right, but it needs fewer significant figures.

[Check my answer](#)

The nature of measurement

Measurements of physical quantities do not yield precise numbers as we know them from mathematics, but rather values with **uncertainty intervals**.

Significant Figures

- New sig figs rationale page
- More detailed feedback for students

Bookmarking Questions

- How do you find your favourite questions on Isaac?
- Now, you bookmark them!

The screenshot shows the Isaac website interface. At the top, there's a navigation bar with links like 'About Isaac', 'Question finder', 'Concepts', 'Tests', 'News', 'Events', 'Books', 'Help', and 'Log out'. Below this, there's a section for 'Explore by learning stage' with tabs for '11-14', 'GCSE', 'A Level', and 'University'. The 'University' tab is selected. To the right, there's a search bar labeled 'accessibility'. The main content area is titled 'Welcome back, L. Jardine-Wright!' and includes a 'Dashboard view' toggle for 'Teacher' and 'Student'. There are four main sections: 'View group progress' (listing groups like 'Isaac KS3 Jamboree Demo Group'), 'View scheduled work' (listing tasks like 'Damped and Forced Harmonic Oscillations'), 'Explore our books' (showing book covers for 'Step into Physics' and 'Step Up to GCSE Physics'), and 'More in My Isaac' (listing features like 'Teacher features', 'Manage groups', etc.). A red bookmark icon is highlighted in the 'View scheduled work' section. At the bottom, there's an 'Explore and learn!' section with 'Physics' and 'Maths' cards, each with a 'Discover how the universe works...' or 'Unlock the language of science...' message and buttons for 'GCSE', 'A Level', and 'University'.

The screenshot shows a list of questions on the Isaac website. The first question is 'The Half Hour' (Vectors) under 'A Level Challenge 2'. The second question is 'A Bungee Jumper' (Year 7&8 Practice 2, Year 9 Practice 1, GCSE Practice 1). A red bookmark icon is highlighted next to the 'A Bungee Jumper' question.

Decks by Topic

- All subjects
- Easier navigation to jump between topic and stage on the same page

The screenshot shows the Isaac Physics website dashboard. At the top, the Isaac logo and tagline "You work it out." are on the left, and navigation links for "About Isaac", "Question finder", "Concepts", "Tests", "News", "Events", "Books", "Help", and "Log out" are on the right. Below this is a navigation bar with "My Isaac" (with a notification badge) and tabs for "Explore by learning stage" (11-14, GCSE, A Level, University) and "Explore by subject" (Physics, Maths, Chemistry, Biology). A search bar is on the right.

The main content area is titled "Welcome back, L. Jardine-Wright!" and includes a "Dashboard view" toggle for "Teacher" and "Student". It features four main sections:

- View group progress:** Lists groups like "Isaac KS3 Jamboree Demo Group" and "KS3 Jamboree Twyford 26". A link "See all groups' progress" is at the bottom.
- View scheduled work:** Shows tasks like "STEM SMART Double Maths 22 - Vector Equations of Motion" and "18. Conical Pendulum" with due dates. A link "See all set work" is at the bottom.
- Explore our books:** Displays book covers for "Step into Physics" and "Step Up to GCSE Physics". A link "See all books" is at the bottom.
- More in My Isaac:** Lists features like "Teacher features", "Manage groups", "Create a question deck", "Set / manage work", "Assignment progress", and "My account".

At the bottom, an "Explore and learn!" section features four topic cards: Physics, Maths, Chemistry, and Biology. Each card includes a description and a row of learning stage buttons (11-14, GCSE, A Level, University).

Saved Question Decks

- Do you have favourite question decks that you list in your scheme of work?
- Now you can save them on Isaac
- You control what is saved

A screenshot of the Isaac Science website dashboard for a teacher. The top navigation bar includes the Isaac logo, the tagline "You work it out.", and links for About Isaac, Question finder, Concepts, Tests, News, Events, Books, Help, and a settings menu. Below this is a secondary navigation bar with "My Isaac" and tabs for learning stages (11-14, GCSE, A Level, University) and subjects (Physics, Maths, Chemistry, Biology). A search bar is on the right. The main content area starts with a welcome message "Welcome back, L. Jardine-Wright!" and a "Dashboard view" toggle. It features four main panels: "View group progress" (showing a quiz test group), "View scheduled work" (showing no upcoming due dates), "Explore our books" (showing "Step into Physics" and "Step Up to GCSE Physics"), and "More in My Isaac" (listing teacher features like Manage groups, Create a question deck, etc.). At the bottom, there's an "Explore and learn!" section with cards for Physics and Maths, each with learning stage filters (GCSE, A Level, University).

Would you like my saved decks to appear in the teacher menu as well as in the student menu?

Response to AI

- ⬡ Isaac aims to save teachers work
- ⬡ AI means that auto-marking is helpful but how do you check for cheating?
- ⬡ Pop quiz!

1. Class starter for 10 mins written by Isaac Team (Anton).
2. Checks understanding of homework.
3. 3 questions: easy, medium, challenge

Response to AI: Suggested implementation

- ⬡ 10 mins individual working.
- ⬡ Project online questions on the board
- ⬡ Use mini white boards to solicit answers from class
- ⬡ Enter the answers in live at the front.

Teachers have exclusive access to the answers for these 3 questions.

If they leak - that's on you!

Response to AI: Finding these questions

- Trialled for Pre-Uni Physics
- If teachers find it is useful – we will look at doing this for more books.

Book Section Navigation

A screenshot of the Isaac software interface. At the top, there's a navigation bar with links: About Isaac, Question finder, Concepts, Tests, News, Events, Books, Help, and a settings gear icon followed by Log out. Below this is a user profile section for "My Isaac" with a "1" badge. To the right, there are filters for "Explore by learning stage" (11-14, GCSE, A Level, University) and "Explore by subject" (Physics, Maths, Chemistry, Biology). A search bar is also present. The main content area is titled "Welcome back, L. Jardine-Wright!" and includes a "Dashboard view" toggle for Teacher and Student. There are four main panels: "View group progress" showing a list of groups, "View scheduled work" with three task cards (Damped and Forced Harmonic Oscillations, R Parametric Curves & Vector Calculus, QMP: 1.25 - 1.34 Vectors), "Explore our books" with a dropdown menu and book covers for "Step into Physics", "Step Up to GCSE Physics", and "Essential Physics", and "More in My Isaac" with links for Teacher features, Manage groups, Create a question deck, Set / manage work, Assignment progress, and My account. At the bottom, there's an "Explore and learn!" section with four subject cards: Physics, Maths, Chemistry, and Biology, each with a description and learning stage buttons (11-14, GCSE, A Level, University).

- Small things make big differences (we hope!)
- New button on each book question deck to take you back to the relevant book section.
