

Isaac Science Teacher CPD: Using a Teacher Account

Ingrid Murray, Teacher Support Manager

ingrid@isaacscience.org

We will learn how to:

Set up **groups**

Find or make an **assignment**

Set an **assignment**

Set and manage **tests**

View **results** by overview and by question

How can Isaac Science support secondary science teachers?

Students who use Isaac Science regularly show evidence-based **improvement in exam grades** and success in getting into **good universities**.

Teachers who use Isaac Science regularly **save hours** in planning, marking and assessment. On average, 6 hours per week!

What do teachers say about Isaac?

I have over 30 years experience of teaching A level physics and I find the range and scope of the questions available on Isaac Physics challenging, inspirational, and able to explore problem solving in a way that links ideas across the specifications I teach. (A)

Without Isaac Physics I'm not sure how long I would want to remain teaching physics. It is an essential part of my teacher's toolkit, it saves so much workload in marking pupils' equation drill practice.

The community is very willing to share resources, tips, solutions and makes my life easier as a physics teacher. (TH)

Isaac Physics is by far the single biggest influence on my physics teaching over the last ten years. It's the best source of training, content, discussion and challenge for students that I know of. It's a brilliant resource and long may it continue. (RW)

How to get started with Isaac Science:

1. Sign up for an account

<https://isaacscience.org/register>

Hello!
Here, you can create an Isaac Science account, or log in to an existing one.

Create a new account with your email:

[Continue with email](#)

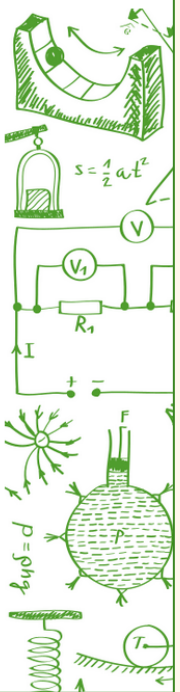

Or log in with:

[Google](#)

[Microsoft](#)

Already have an account?

[Log in](#)

2. Request an upgrade to a teacher account

Account details
Here you can see and manage your account details for Isaac Science.

You have a **student** account. If you are a teacher or tutor, you can [upgrade your account](#).

If you would like to delete your account, please [click here](#).

Navigating the Isaac Science website:

Dropdown Menus

Access tools and resources from any page of the Isaac Science website

A screenshot of the Isaac Science website interface. The top navigation bar includes links for "About Isaac", "Question finder", "Concepts", "News", "Events", "Books", "Help" (highlighted with a red box), a settings gear icon, and "Log out". Below the navigation bar, there are two main exploration sections: "Explore by learning stage" and "Explore by subject". In the "Explore by learning stage" section, the "A Level" tab is highlighted with a red box, showing a dropdown menu with options: "A Level Physics", "A Level Maths", "A Level Chemistry", and "A Level Biology". In the "Explore by subject" section, the "Physics" tab is highlighted with a red box, showing a dropdown menu with options: "11-14 Physics", "GCSE Physics", "A Level Physics", and "University Physics". On the left side, there is a "My Isaac" dropdown menu (highlighted with a red box) with options: "My question decks", "My assignments", "My tests", "My progress", "My account", and "Log out". On the right side, there is a "Help" dropdown menu (highlighted with a red box) with options: "Problem-solving guide", "Student FAQ", "Teacher FAQ", "Glossary", and "Contact Us". The main content area includes a "Welcome" section, a "View group" section, and a "More in My" section. The "Explore our books" section displays three book covers: "Step into Physics", "Step Up to GCSE Physics", and "Essential GCSE Physics".

Navigating the Isaac Science website:

Finding help and support

A screenshot of the Isaac Science website dashboard. The top navigation bar includes the Isaac Science logo and the tagline "You work it out.", followed by links for "About Isaac", "Question finder", "Concepts", "News", "Events", "Books", "Help", and "Log out". Below this, there are two main navigation sections: "Explore by learning stage" and "Explore by subject". The "Explore by learning stage" section has links for "11-14", "GCSE", "A Level", and "University". The "Explore by subject" section has links for "Physics", "Maths", "Chemistry", and "Biology". A search bar is located on the right side of the dashboard. The main content area is divided into several sections. On the left, there is a "Welcome" section with a "View group" button. Below this, there is a "My account" section with a "Log out" button. In the center, there is a "STUDENT" section with links for "My question decks", "My assignments", "My tests", and "My progress". To the right of the "STUDENT" section, there is a "TEACHER" section with links for "Teacher features", "Manage groups", "Set assignments", "Assignment schedule", "Assignment progress", and "Set / manage tests". The "Teacher features" link is highlighted with a red box. Below the "TEACHER" section, there is a "More in My Isaac" section with links for "Teacher features", "Manage groups", "Set assignments", "Assignment schedule", "Assignment progress", "Set / manage tests", and "My account". The "Teacher features" link is also highlighted with a red box. On the right side of the dashboard, there is a "Dashboard view" section with tabs for "Teacher" and "Student". Below this, there is an "Explore our books" section with a dropdown menu set to "All". This section displays three book covers: "Step into Physics", "Step Up to GCSE Physics", and "Essential GCSE Physics". Below the book covers, there are links for "See all books" and "See all set tests".

Browse free events for your KS4 and KS5 students.

Setting up a group:

Help Video:

[Updated video?](#)

Setting up a group:

Link can be emailed to your students' school email accounts. They will be prompted to set up a student account.

Group created

[CLOSE](#)

Invite members to join

Share the link or code to invite people to your group.

Students will see the name and email address on your account when they join.

Share this link

Share this link with students so they can join your group:

[Copy](#)

Generate a QR Code

Students can scan a QR code on their device to join your group:

[Generate QR Code](#)

Or use this code

Students can enter this code in their Isaac account. They'll need to go to **My account**, then **Teacher Connections**.

[Copy](#)

What to do next

[Set an assignment](#)[Add group managers](#)

This allows another teacher to see the results of assignments set for this group

Share your group

[CLOSE](#)

Selected group: Test 1

Sharing permissions

When you share this group, other teachers can:

- Add and remove students
- Set new assignments or tests
- View student progress

Additional managers will not automatically see detailed mark data unless students give them access.

Current group managers

There are no additional group managers for this group.

☐ Give additional managers extra privileges

Enabling this option allows additional managers to:

- Modify or delete **all assignments**, including those set by the owner
- Remove group members
- Archive and rename the group

Add additional managers

Enter the email of another Isaac teacher account below to add them as a group manager. Note that this will share their email address with the students.

Remember: Students may need to reuse the group link (<https://isaacscience.org/account?authToken=4RYPCN>) to approve access to their data for any new teachers.

Code can be emailed to your students' school email accounts. They will need a student account.

Find or make an assignment:

The screenshot displays the Isaac Physics website interface. At the top, the Isaac logo and tagline "You work it out." are on the left, and navigation links for "About Isaac", "Question finder", "Concepts", "News", "Events", "Books", "Help", and "Log out" are on the right. Below the header, there are two main navigation sections: "Explore by learning stage" and "Explore by subject". The "Explore by learning stage" section includes links for "11-14", "GCSE", "A Level", and "University". The "Explore by subject" section includes links for "Physics", "Maths", "Chemistry", and "Biology". A search bar is located to the right of these sections. On the left side, a user profile menu is open, showing options for "STUDENT" and "TEACHER". The "TEACHER" menu is expanded, and the "Set assignments" option is highlighted with a red box. Other options in the "TEACHER" menu include "Teacher features", "Manage groups", "Assignment schedule", "Assignment progress", and "Set / manage tests". The main content area features a "Welcome" message, a "View group" section, and a "Explore our books" section with three book covers: "Step into Physics", "Step up to GCSE Physics", and "Essential GCSE Physics". A "More in My Isaac" section is also visible on the right, listing various features and account options.

A level Physics

The following decks use questions from across the website, and are ideal to use in lessons, for homework or when revising. At present, the scope is limited to Physics lessons for GCSE and A Level or equivalent. The decks are not comprehensive, i.e. they do not contain all the Isaac Physics questions on the topic. More questions can often be found using the [Question Finder](#), the [GCSE Physics book](#) and [Pre-Uni Physics book](#) pages, the maths [Question decks by topic](#) page, or the search bar.

The screenshot shows the Isaac user interface. At the top left is the Isaac logo with the tagline "You work it out.". Below it is a navigation bar with "BY My Isaac" highlighted. To the right of this are two sections: "Explore by learning stage" with links for "11-14", "GCSE", "A Level", and "University"; and "Explore by subject" with links for "Physics", "Maths", "Chemistry", and "Biology". On the left side, there is a "Welcome" section and a "View group" section. In the center, there is a dropdown menu for "My Isaac" with two main categories: "STUDENT" and "TEACHER". Under "STUDENT", there are links for "My question decks", "My assignments", "My tests", and "My progress". Under "TEACHER", there are links for "Teacher features", "Manage groups", "Set assignments", "Assignment schedule", "Assignment progress" (which is highlighted with a green box), and "Set / manage tests". At the bottom of the page, there are two links: "See assignment schedule" and "See all set tests".

The screenshot shows the "Assignment progress" page. At the top is a dark header with the Isaac logo and the title "Assignment progress". Below the header is a paragraph of text: "When you set work for your students, you can track their progress here. Each of your active groups will be displayed on this page, and you can select a group to view their progress. If you want to remove a group from this page, go to the [Manage Groups](#) page, select the group and choose **Archive**." To the right of this text are two icons: an information icon and a share icon. Below the text is a search bar with the placeholder "Search for a group:" and a magnifying glass icon. To the right of the search bar is a "Sort by:" dropdown menu set to "Alphabetical". Below the search bar is a table of groups. The table has two rows: "12A Physics" and "12B Biology". Each row has two links: "Download assignments CSV" and "Download tests CSV", both with a download icon. The "12B Biology" row also has a right arrow icon. The "Download assignments CSV" and "Download tests CSV" links for the "12B Biology" row are highlighted with a red box. A green arrow points from the "Assignment progress" link in the Isaac interface to the "Assignment progress" page.
