

Isaac New Features

Lisa Jardine-Wright, Jaycie Brown, Barna Magyarkuti

Overview

1. Setting and managing work on Isaac
2. Core skills apps and viewing student engagement with them
3. A potential re-work of assignment progress

We would like your help

Teacher Menu

- Please do “play along” in this presentation
- You will need to login with your teacher account on Isaac
- **New My Isaac teacher menu**

The screenshot displays the Isaac Physics website's Teacher Menu. At the top, the Isaac logo and tagline "You work it out." are on the left, while navigation links for "About Isaac", "Question finder", "Concepts", "Tests", "News", "Events", "Books", "Help", and "Log out" are on the right. Below this, a secondary navigation bar includes "My Isaac" (with a user icon), "Explore by learning stage" (with links for 11-14, GCSE, A Level, and University), and "Explore by subject" (with links for Physics, Maths, Chemistry, and Biology). A search bar on the right contains the text "doppler".

The main content area is titled "Welcome back, L. Jardine-Wright!" and includes a "Dashboard view" toggle with "Teacher" and "Student" options. It is divided into four columns:

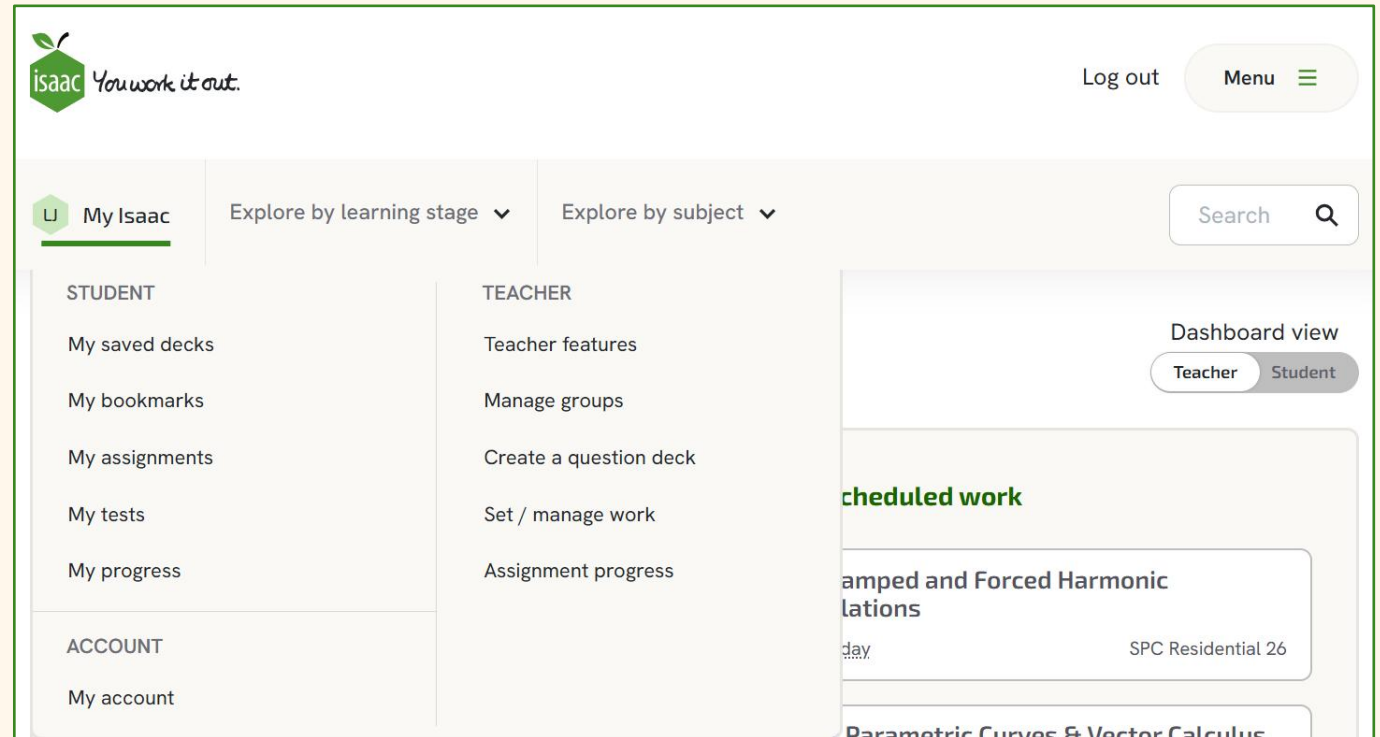

- View group progress:** Lists groups such as "Isaac KS3 Jamboree Demo Group", "KS3 Jamboree Twyford 26", "KS3 Jamboree Uppingham School", "KS3 Jamboree Neale-Wade 26", and "KS3 Jamboree IVC 26". A link "See all groups' progress" is at the bottom.
- View scheduled work:** Shows a list of tasks with due dates and locations. Examples include "Damped and Forced Harmonic Oscillations" (Due today, SPC Residential 26), "R Parametric Curves & Vector Calculus" (Due today, SPC Residential 26), and "QMP: 1.25 - 1.34 Vectors" (Due today, SPC Residential 26). A link "See all set work" is at the bottom.
- Explore our books:** Features a dropdown menu set to "All" and displays book covers for "Step into Physics" and "Step Up to GCSE Physics". A link "See all books" is at the bottom.
- More in My Isaac:** Lists features like "Teacher features", "Manage groups", "Create a question deck", "Set / manage work", and "Assignment progress". A section for "My account" is also present.

At the bottom, an "Explore and learn!" section highlights "Physics" and "Maths". The "Physics" section includes a description: "Discover how the universe works using our question decks, quizzes, lessons and revision, and much more. Click on a learning stage below to explore!" and buttons for "11-14", "GCSE", "A Level", and "University". The "Maths" section includes a description: "Unlock the language of science using our question decks, apps, and much more. Click on a learning stage below to explore!" and buttons for "GCSE", "A Level", and "University".

Teacher Menu

- ⬡ What has changed?
- ⬡ Set/manage work now combines:
 - Set assignments
 - Set tests AND
 - Ability to manage assignments and tests

Set / Manage Work

The screenshot shows the 'Set / manage work' interface. At the top, there's a navigation bar with links like 'About Isaac', 'Question finder', 'Concepts', 'Tests', 'News', 'Events', 'Books', 'Help', and 'Log out'. Below this, there's a section for 'Explore by learning stage' (11-14, GCSE, A Level, University) and 'Explore by subject' (Physics, Maths, Chemistry, Biology). A search bar is also present.

The main heading is 'Set / manage work'. Below it, a description states: 'Here you can view and manage existing assignments and tests, allowing you to filter by group, by start date or due date, remove assignments, find links to view student progress, change test feedback and more.'

On the left, there are filters:

- Date shown:** Start date (selected) or Due date.
- Filter by group:** All (selected).
- Filter by work type:** All (selected).
- Filter by title:** Search by title.
- Collapse schedule:** A button to collapse the schedule.

The main content area shows a calendar for 2026. It has buttons for 'Set a new assignment' and 'Set a new test'. A filter 'Show work before 01/06/2026' is applied. The calendar shows the following data:

Month	Assignments and Tests
June	10 assignments and 5 tests set
July	13 assignments and 6 tests set

Detailed daily breakdown for July:

Date	Day	Work Set
02	Thu	1 group · 1 test set
04	Sat	2 groups · 1 assignment and 2 tests set
06	Mon	1 group · 1 assignment set
07	Tue	1 group · 5 assignments and 2 tests set
08	Wed	1 group · 2 assignments set
09	Thu	1 group · 1 assignment set
11	Sat	1 group · 1 assignment and 1 test set
17	Fri	1 group · 2 assignments set

⬡ All actions in one place:

⬡ Assignments

- Set a new assignment from
 - Our books
 - Our topic decks
 - Your saved decks
 - A new question deck

- Unassign assignments

⬡ Tests

- Set tests
- Unassign test, change level of feedback, extend due dates

What should we call "Set / Manage Work"?

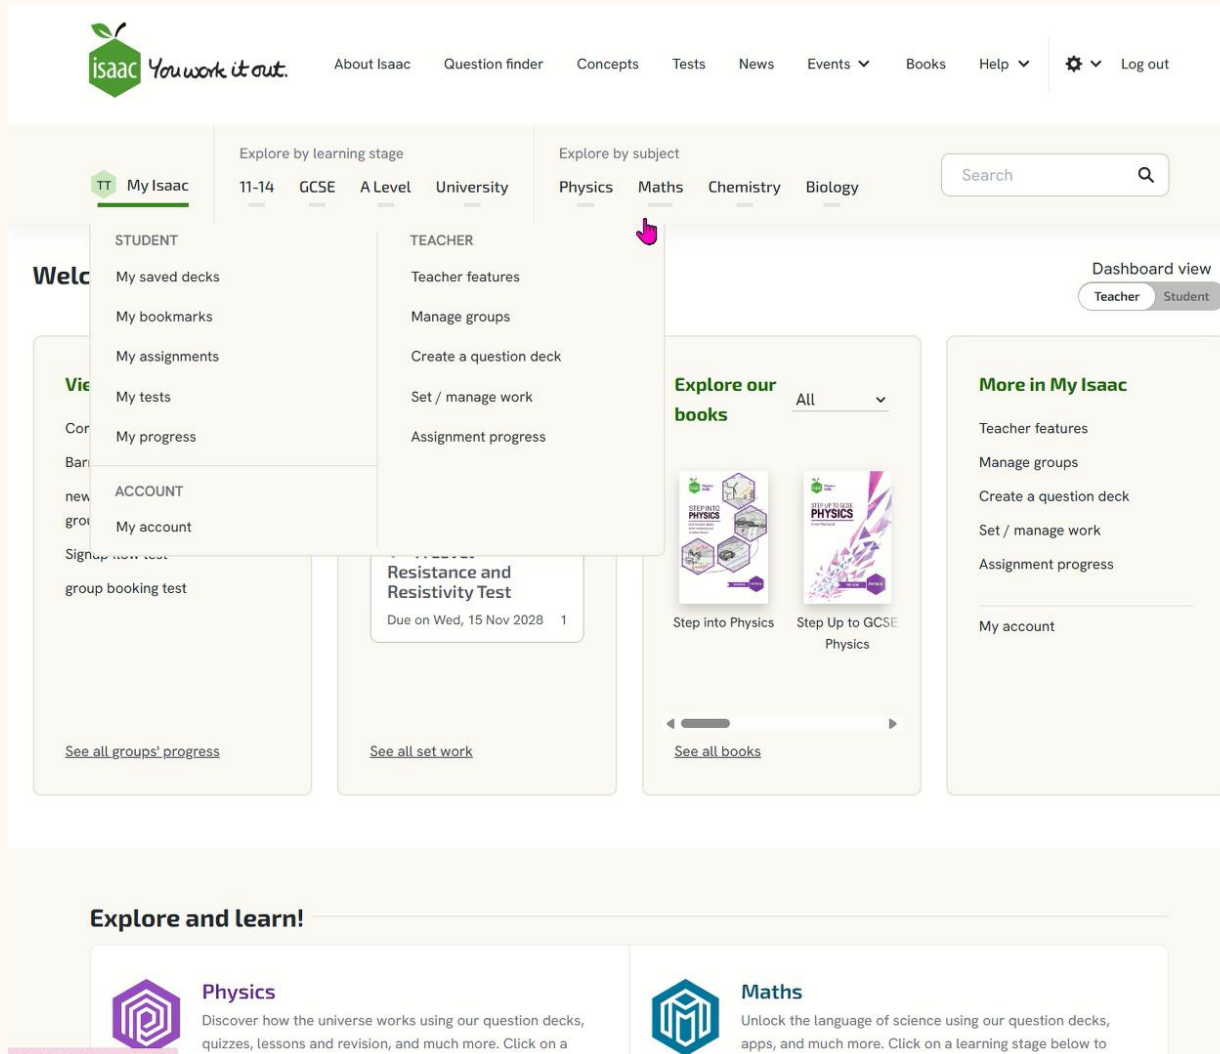

Core Skills Apps

A screenshot of the Isaac website interface. At the top, there's a navigation bar with the Isaac logo and tagline "You work it out.", followed by links: About Isaac, Question finder, Concepts, Tests, News, Events, Books, Help, and a settings gear icon with a "Log out" link. Below this is a secondary navigation bar with "Explore by learning stage" (11-14, GCSE, A Level, University) and "Explore by subject" (Physics, Maths, Chemistry, Biology). A search bar is on the right. The main content area is titled "Welcome back, Test Student!". It features four main cards: 1. "Complete current work" showing an assignment "A Level Resistance and Resistivity Test" due on Wed, 15 Nov 2028. 2. "Build your weekly streak" showing a circular progress indicator at 0 weeks and a challenge: "Only 10 more question parts to answer correctly this week!". 3. "Join a group" with a text input for a code and a "Connect" button. 4. "More in My Isaac" with links to "My saved decks", "My assignments", "My progress", "My tests" (with a notification badge), and "My account". At the bottom, there's an "Explore and learn!" section with cards for "Physics" and "Maths", each with a brief description and a link to explore.

- New core skills apps were demonstrated in 2025
- You wanted to be able to see which students were using this feature ...
- Attempts are now recorded on their “My Progress” page.
- Here’s how to view that...

Core Skills Apps

○ To view your students **My Progress** page and their skills work you can...

- Go to **Manage Groups** and click on a student name OR
- Go to **Assignment Progress** and click on a student name

○ This also enables you to see their overall question attempts

Would you like to be able to assign core skills apps to your students? If so, how often do you think you would do this?

Assign "Overall Mental Maths"

[CLOSE](#)

Subskills:

integer multiplications × integer divisions × decimal multiplications ×

decimal divisions × fraction multiplications × fraction divisions ×

exponent rules ×

Groups:

None

Start date:

17

July

2026

×

Due date:

24

July

2026

×

Target:

- ☐ No specific target
Students will see that practice is assigned, and you will see the practice they've done.
How much they practice is up to them.
- ☐ Until they've achieved mastery
For each assigned subskill, students will need to get correct at least 3 out of 5 attempts in a row.
- ☐ Until they've got 10 correct
For each assigned subskill, students will need to achieve 10 correct attempts.
- ☐ Until they've made 10 attempts
For each assigned subskill, students will need to make 10 attempts.

Core Skills Survey

Proposal for linking attempts to assignments

- Teachers have previously requested that they wanted to be able to re-set assignments to the same group multiple times
- **Scenario:** Set an assignment at the end of a topic and you wish to re-set the same assignment again during students' revision period.
- To do this we would need to link students' attempts to the specific assignment that was set.
- **If** we proceed with this proposal, we would like to know how you would like it to work.

The small print: **Re-setting assignment**

- + **Ability to re-set work.** Assignments will always appear to start from scratch. This enables teachers to set the same sets of questions multiple times, requiring students to attempt the questions again.
- + **Hard due dates.** Assignments' due dates will become hard cut-offs; students will no longer be able to complete an assignment after this date. Due to technical limitations, any required due date extension must be made for the entire class, not per-person.
- **Same attempt will not count across multiple assignments even in the same date range.** Currently students are only expected to answer a given question once and it is counted in all assignments that contain that question. This setup will not be possible under the proposed change and students will have to answer the question again in all assignments in which it exists.

Re-setting assignments

① The Slido app must be installed on every computer you're presenting from
